Abstract: Records of the following species are presented: *Attagenus abbreviatus* Heer, 1856 (Canary Isl.); *Attagenus assuanensis* (Pic, 1899) (Libya); *Attagenus cuneatus* Zhantiev, 2007 (Iran); *Attagenus maseki* Háva, 2013 (Yemen); *Attagenus uniformis* Fairmaire in Fairmaire & Coquerel, 1860 (Iraq); *Cryptorhopalum davidsoni* Kadej & Háva, 2013 (Dominican Republic); *Cryptorhopalum youngi* Kadej & Háva, 2013 (Dominican Republic); *Dermestes (Dermestes) lardarius* Linnaeus, 1758 (Nepal); *Globicornis (Globicornis) kafkai* Háva, 2000 (Iraq); *Thaumaglossa ghana* Háva, 2002 (Ivory Coast); *Thaumaglossa rufiventris* Pic, 1927 (Togo); *Thaumaglossa rufofasciata* (Pic, 1915) (Nigeria).

Key words: Coleoptera, Dermestidae, Faunistics, new records, World.

Resumen: Nuevas citas faunísticas de Dermestidae (Coleoptera) basadas en ejemplares depositados en el Museo Finlandés de Historia Natural. Se presentan citas de las siguientes especies: *Attagenus abbreviatus* Heer, 1856 (Islas Canarias.); *Attagenus assuanensis* (Pic, 1899) (Libia); *Attagenus cuneatus* Zhantiev, 2007 (Irán); *Attagenus maseki* Háva, 2013 (Yemen); *Attagenus uniformis* Fairmaire en Fairmaire & Coquerel, 1860 (Iraq); *Cryptorhopalum davidsoni* Kadej & Háva, 2013 (República Dominicana); *Cryptorhopalum youngi* Kadej & Háva, 2013 (República Dominicana); *Dermestes (Dermestes) lardarius* Linnaeus, 1758 (Nepal); *Globicornis (Globicornis) kafkai* Háva, 2000 (Iraq); *Thaumaglossa ghana* Háva, 2002 (Costa de Marfil); *Thaumaglossa rufiventris* Pic, 1927 (Togo); *Thaumaglossa rufofasciata* (Pic, 1915) (Nigeria).

Palabras clave: Coleoptera, Dermestidae, Faunística, nuevas citas mundiales.

Introduction

The present article follows the preceding recently published article dealing with material of Dermestidae (Coleoptera) deposited in Finnish Museum of Natural History, Helsinki, Finland (Háva 2014). In this new paper, the author presents faunistic records of 12 species of Dermestidae belonging to the subfamilies Attageninae, Dermestinae and Megatominae.

Material and methods

Species are arranged in alphabetical order and the nomenclature and zoogeography by Háva (2003, 2007) is employed.

The following abbreviations refer to the collections where the examined material is deposited:

JHAC: Jiří Háva, Private Entomological Laboratory & Collection, Únětice u Prahy, Prague-west, Czech Republic.

MZHF: Finnish Museum of Natural History, Helsinki, Finland.

Results

Subfamily Attageninae

Attagenus abbreviatus Heer, 1856

Material examined: Canary Islands: Gran Canaria, Aldea S. Nicolás, 1.III.1949, Lindberg leg., *Attagenus pseudoobtusus* n. sp., 2 spec., J. Háva det., (MZHF); Ins. Graciosa, pr. Lanzarote, 20.III.1949, Lindberg leg., 2 spec., J. Háva det., (MZHF, JHAC).

Distribution: A species known from the Canary Islands (Háva 2007). First concrete data from Graciosa Isl.

Remarks: In the material studied, two specimens from Gran Canaria, erroneously determined as *Attagenus pseudoobtusus* n. sp., were found; both specimens were conspecific with other specimens belonging to *Attagenus abbreviatus* Heer, 1856.

Attagenus assuanensis (Pic, 1899)

Material examined: Libya, Zouara-Tripolis road, 27.VIII.1962, R. Linnavuori leg., 1 spec., J. Háva det., (MZHF).

Distribution: A species already known from Algeria and Egypt (Háva 2007). New to Libya.

Attagenus cuneatus Zhantiev, 2007

Material examined: Iran, Khorasan, nr Parvand, 60-75 km W Sabzevar, 1.VI.1994, R. Linnavuori leg., *Attagenus c. cuneatus* Zhantiev det. 2006, 2 spec., J. Háva rev., (MZHF).

Distribution: A species known from Turkmenistan (Zhantiev 2007). New to Iran.

Attagenus maseki Háva, 2013

Material examined: Yemen, Hudaydah, Al Mansuriyah-Zabid, 4.V.1992, R. Linnavuori leg., 1 spec., J. Háva det., (MZHF).

Distribution: A species recently described from Yemen (Háva 2013). New locality data from Yemen.

Attagenus uniformis Fairmaire in Fairmaire & Coquerel, 1860

Material examined: Iraq, al-Muthanna, As Salman - Takhadid, 18.IV.1980, R. Linnavuori leg., *Attagenus* sp. Zhantiev det. 2003, 1 female, J. Háva det., (MZHF).

Distribution: A species known from Sicily, Algeria, Egypt, Libya, Morocco, Sudan, Tunisia, Iraq, Israel and Syria (Háva 2007). New locality data from Iraq.

Subfamily Dermestinae

Dermestes (Dermestes) lardarius Linnaeus, 1758

Material examined: Nepal, Sagarmatha NP, Khumjung, 3800 m, 27°49' N 86°44' E, 16.V.1996, Finnish Exp.: Albrecht, Biström, Mikkola & Wikberg leg., 1 female, J. Háva det., (MZHF).

Distribution. A cosmopolitan species (Háva, 2007). New locality from Nepal.

Subfamily Megatominae

Cryptorhopalum davidsoni Kadej & Háva, 2013

Material examined: Rep. Dominicana, Puerto Plata. Sosua, El Batey, 27.III.-3.IV.1992, M. Koponen leg., 6 spec., J. Háva det., (7 MZHF, 1 JHAC).

Distribution: A species known from the Dominican Republic (Kadej & Háva 2013). New locality data from the Dominican Republic.

Cryptorhopalum thompsonii Kadej & Háva, 2013

Material examined: Rep. Dominicana, Puerto Plata. Sosua, El Batey, 25.I.-30.I.1991, M. Koponen leg., 22 spec., J. Háva det., (21 MZHF, 1 JHAC); the same data but 21-27.III.1992, 9 spec., (8 MZHF, 1 JHAC).

Distribution: A species known from the Dominican Republic (Kadej & Háva 2013). New locality data from the Dominican Republic.

Globicornis (Globicornis) kafkai Háva, 2000

Material examined: Iraq, Ninawa Jebel Sinjar, 8.V.1981, R. Linnavuori leg., 3 spec., J. Háva det., (2 MZHF, 1 JHAC).

Distribution: A species known from Cyprus, Turkey, Iran and Syria (Háva 2007). New to Iraq.

Thaumaglossa ghana Háva, 2002

Material examined: Ivory Coast, Adiopodoumé, 29.IX.-7.X.1973, R. Linnavuori leg., 1 male, J. Háva det., (MZHF).

Distribution: A species known from Cameroon, Ghana, Ivory Coast and Nigeria (Háva 2003). New locality data from Ivory Coast.

Thaumaglossa rufiventris Pic, 1927

Material examined: Togo, Bena, 12.IX.1973, R. Linnavuori leg., 1 male, J. Háva det., (MZHF).

Distribution: A species known from Benin, Cameroon, Congo, Ghana, Equatorial Guinea and Ivory Coast (Háva 2003). New to Togo.

Thaumaglossa rufofasciata (Pic, 1915)

Material examined: Nigeria W. St., Ogbomosho-Igbetti, 17.VII.1973, R. Linnavuori leg., 1 female, J. Háva det., (MZHF).

Distribution. A species known from the Central African Republic, Nigeria and Senegal (Háva 2003). New locality data from Nigeria.

Acknowledgements

I'm indebted to Jaakko Mattila (MZHF) for loaning me the interesting material and to Miloslav Rakovič (Prague, Czech Republic) for improving the English text. The research was supported by the Internal Grant Agency (IGA n.20124364), Faculty of Forestry and Wood Sciences, Czech University of Life Sciences Prague.
